SUMMARY

I am a driven web developer looking to build beautiful and useful websites and work with a great team. I am a fast learner with excellent critical thinking skills and a systematic approach to solving problems.

SKILLS

- | | | |
|------------------|---------------------|--------------------|
| ★ JavaScript ES6 | ★ Git | ★ Sequelize |
| ★ React | ★ Responsive design | ★ PostgreSQL/MySQL |
| ★ jQuery | ★ Node | ★ mongoDB |

PROJECTS

Nonogram / [GitHub](#)

HTML5, CSS3 and jQuery

This is a logic game I love to play so I built it from scratch to see if I could. It was interesting and fun building the mechanics of the game as well as making it look attractive to play.

Pandemic Watch / [GitHub](#)

React, Covid Act Now API

This website is a way of easily keeping tabs on the progression of vaccinations among the states. I used the Victory npm package to make the graphs and Covid Act Now API to gather the data.

Really Radical Recipes / [GitHub](#)

HTML5, CSS3 and jQuery

Group built project where users can search for recipes by typing in one or multiple ingredients and a carousel populated with images and titles appears, allowing the user to select a recipe of their choosing

My Minesweeper / [GitHub](#)

HTML5, CSS3 and jQuery

Fun personal project to build my own minesweeper game from scratch. It was an interesting task thinking through the code that would be necessary to create a new game for every playthrough.

EDUCATION

University of Minnesota **Full Stack Web Development**

Sept 2021 - Dec 2021

- Fast paced, indepth, full stack web development course with a full time schedule. Built projects as a group using Agile methods and excellent communication.
- Tutored other students using my previous knowledge from the pre-pandemic bootcamp.

THINKFUL **Full Stack Web Development**

April 2019 - Feb 2020

- Self-paced program working with a mentor on a weekly basis to grow my skills as a web developer.
- Utilized my persistence, resourcefulness, and creativity to build my projects

Globe University **Veterinary Technology** 3.8 GPA

March 2015 - Dec 2016

Minnesota State University Moorhead **Ecology and Evolutionary Biology** 3.5 GPA

Sept 2008 - Dec 2010
