

# Kathy Bradt

A motivated software engineer seeking to leverage my adaptable, versatile and self starter nature and problem-solving skills to contribute innovative software solutions.

## EXPERIENCE

### Optum, Remote — Associate Software Engineer

July 2022 - PRESENT

Worked on a scrum team to create and upkeep ETL pipelines, REST APIs, and Azure services to implement and optimize data workflows, leveraging Kafka topics for efficient data processing and integration.

### ConceiveAbilities, My Uterus — Gestational Surrogate

September 2018 - July 2021

Effectively and reliably communicated sensitive detailed information to intended parents. Successfully and safely delivered a bundle of joy to parents ahead of schedule. I was asked to deliver for them a second time which I happily agreed to.

### AERC, Oakdale, MN — Veterinary Technician

July 2017 - November 2019

Utilized strong analytical and problem-solving skills to address complex health issues in animals, demonstrating critical thinking during emergency situations. Collaborated effectively with a multidisciplinary team, enhancing communication across departments to ensure quality and efficient care.

## EDUCATION

### U of M bootcamp, Remote — Full Stack Engineering

Sept 2021 - Dec 2021

Collaborated in group projects, contributing expertise and teaching peers to enhance team knowledge, while reinforcing and expanding my own understanding of, JS, Java, React

### Bloc bootcamp, Remote — Full Stack Engineering

April 2019 - Feb 2020

Completed a self-paced program with no previous coding experience, gaining proficiency in basic CLI, Git version control, HTML, CSS, JavaScript and the use of IDEs

### Minnesota State University, Moorhead — Ecology and Evolutionary Biology

Sept 2008 - Dec 2010

20543 Keystone Ave  
Lakeville, MN 55044  
**(651) 216-1486**  
**kathybradt717@gmail.com**

## Certification

Azure Foundation  
Certification - Nov 2024

## Programming Languages

Java  
Python  
JavaScript  
RedPanda/Benthos  
SQL (PostgreSQL, MySQL)

## Web Development

React  
Node JS  
Express JS  
Spring  
RESTful APIs  
HTML and CSS

## Backend Development

Serverless computing  
Spring Boot  
Kafka  
Microsoft Azure  
Docker  
Jenkins  
Grafana  
Prometheus

## Additional Skills

Agile methodologies  
Object-oriented  
Programming (OOP)  
Communication  
Collaboration  
Time Management  
Adaptability
